Hedy Lamarr

Hedy Lamarr was a very beautiful Hollywood actress. More importantly, she was an inventor. She was a person ahead of her time! She invented a communications system. Today we call it wi fi.

Hedy Lamarr was born in Austria on the 9th of November, 1914, and she lived to be 85. In German-speaking countries (Germany, Austria, Switzerland) The Inventor's Day is celebrated on the day of her birthday in her honor.

In 2017, director Alexandra Dean made a documentary about her, called *Bombshell: The Hedy Lamarr Story*.
